DGSZ13 Heat Pump

R-410A Refrigerant

13 SEER/Up to 7.8 HSPF

We build quality into every component of our Amana[®] brand heating and air conditioning products. That's why our **Amana[®] Distinctions[®] brand DGSZ13 Energy-Efficient Heat Pump** has a Seasonal Energy Efficiency Rating (SEER) of 13. Plus, with a Heating Seasonal Performance Factor (HSPF) of up to 7.8, your home will be warm and comfortable on cold, frigid nights. Your savings, versus lower SEER units, can add up very quickly.

The savings start with our efficient condensing coil design. We use only high-quality rifled copper tubing and corrugated aluminum fins, which can withstand the corrosive effects of moisture and extreme temperatures. Our coil design provides more cooling surface, which further increases efficiency and decreases your energy bill. Additionally, every coil that goes into an **Amana Distinctions brand DGSZ13 Heat Pump** is thoroughly tested.

Quality You've Come to Expect from Amana Distinctions Brand Products

In addition to outstanding energy efficiency, the **Amana Distinctions brand DGSZ13 Heat Pump** provides you with the following benefits:

- Chlorine-free R-410A refrigerant
- A louvered sound-control top
- A factory-installed high-capacity, steel-cased bi-flow filter drier that keeps moisture and debris out of your system
- SmartShift™ Defrost Technology with short-cycle protection
- A louvered cabinet made of heavy-gauge galvanized steel that protects the coil while its appliance-quality, post-paint finish resists the effects of weather and time
- An attractive design, finished in an architectural gray color, that complements any home environment
